

ABSTRACT

CORRELATION BETWEEN JAVANESE CULTURE PETUNGAN WETON AND DIVORCE PHENOMENON BASED ON THE THEORY TRANSCULTURAL NURSING AT KABUPATEN SIDOARJO

A Cross–Sectional Study at Pengadilan Agama Sidoarjo

By: Nia Elfira Rahmawati

Petungan weton* in marriage is a matter of days of birth and the market from both the bridegroom and women. The goal for the concerned to avoid problems that can affect housewifery. The meaning of petungan weton matching is a good housewifery, while the meaning of petungan weton that didn't match was housewifery will be fraught with difficulties up to the divorce. The purpose of this study to determine the relationship between Javanese culture petungan weton with divorce phenomenon based on transcultural nursing in Sidoarjo. Design used in this study was descriptive analytic with cross sectional approach. The population were husband or wife at Pengadilan Agama Sidoarjo. Total sampel were 25 respondent who met inclusion criteria. The independent variabel was petungan weton. The dependent variabel was divorce phenomenon. Data were collected by using identity form respondent. Data were then analyzed by using correlation chi square test with significance level of $p = 0,05$. Result showed that petungan weton hasn't correlation with divorce phenomenon ($p = 0,588$). It can be concluded Javanese culture petungan weton and divorce phenomenon hasn't correlation. Nurses communities, especially family caregivers based on transcultural nursing, can perform the intervention planning that is negotiated petungan weton culture in the Java community. Further research needs to study with qualitative methods.
